Between 1977 and 2002 Canterbury Urban Studies Centre (CUSC) and Canterbury Environment Centre (CEC) published around 30 guides and city trails describing various aspects of Canterbury's past. Both organisations were based in St Alphege church. Between them they produced 14 titles in the 'Trails' series, and a further 16 titles outside the main series. All are now out of print and many are difficult to find (a few impossible) through normal second-hand sources. Many contain information that is not readily available in other printed or on-line sources.
